DETAILED ACTION

1. The current title is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Art Rejections:

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-17 are rejected under 35 U.S.C. § 102(e) as being clearly anticipated by Lee et al, U.S. pat. No. 6,336,137.

Lee discloses a method and system for providing data to a thin client, i.e., mobile user, comprising:

Serial No. 09/637,958

- a) generating a request for application data to a specific server application (servlet 63) in response to a client request received at a web server (61, fig. 3) (see col 11, lines 56 - col 12, line 4),
- b) extracting and constructing first data objects and templates from a repository (77, fig.3) (col 12, lines 12-21),
- c) identifying and extracting a second set of data from the database (79, fig. 3) corresponding to the first data objects (see col 12, lines 22-28),
- d) generalizing the second set of data based upon specific rules (col 12, lines 28-33),
- e) presenting the generalized second set of data to the client having a generic application interface (web browser) (see col 11, lines 13-17).

Per claim 9, it is noted that a client request would have included additional subsequent requests followed by the first initial request.

Conclusion:

4. The references cited by the examiner on PTO-892 but not relied upon are considered pertinent to applicant's disclosure.
